

SILVER AGM BATTERY **START STOP READY**

Germany Technology

SILVER DYNAMIC AGM

Start-Stop Batteries with AGM technology, is specifically designed to meet the huge energy demands of vehicles equipped with advanced Start-Stop technologies, such as regenerative braking. It is also called as Silver Dynamic AGM battery, which is capable of powering the most demanding vehicles and accessories with three times the endurance of conventional batteries. This is a battery that delivers optimal performance, faster conductivity and reliable starting power, even when the charge is low.

ADVANTAGES

- Specifically designed for cars with advanced Start-Stop functionality
- Extended cycle life compared with a conventional battery
- Unrivalled cold cranking power up to 135%
- 3 x higher levels of cyclic endurance than conventional batteries
- State-of-the-art AGM technology developed to meet OE requirements.
- AGM technology with outstanding performance for powerful engines and highly equipped cars
- No leakage as sealed completely
- Very high deep discharge capability

SPECIFICATIONS

Model	Rated Voltage (V)	Rated Capacity C ₂₀ (Ah)	Reserve Capacity (min)	CCA (A)	Dimensions (mm)			Terminal Type	Weight (Kg)
					L	W	H		
AGM60	12	60	100	726	242	175	190	AP	19
AGM70	12	70	120	792	278	175	190	AP	22
AGM80	12	80	140	880	315	175	190	AP	25
